

## Technician – Entry Level

Performance Engineers, Inc. (PEI) is looking for a technician to support our contract water/sewer operations and materials testing. Experience is not necessary, but willingness to train towards certifications and an aptitude towards mechanical systems will be essential. This position offers potential for growth within the organization. PEI will provide the necessary training for the right person to work towards a water/sewer operator license.

PEI is a well-established Civil and Structural Engineering firm located in beautiful Charlevoix, MI. We provide contract operations of small drinking water and wastewater systems.

### Responsibilities

- Field Inspection of multiple water and sewer systems
- Filing of reports, correspondence with clients and regulators
- Collection of lab samples
- Coordination and execution of equipment repairs
- Identify and communicate problems
- Assist with geotechnical field services and materials testing

### Skills

- Mechanical aptitude
- Strong work ethic and ability to self-direct
- Strong communication skills
- Proficiency in Microsoft Office Suite
- Able to pass background check and drive company vehicle
- EGLE operator license preferred, but not necessary
- Must be able to stand for extended periods and lift greater than 40lbs

We are a family-oriented company that believes the success of our employees is essential to the success of PEI as a firm. We offer our employees competitive wages, benefits, and room for individual growth and development through technical training and continuing educational opportunities.
